CUSTOMER QUOTES

“Our OSV representative is wonderful. I can send him information about a new hire or an employee that has a problem with their holiday time, and he always fulfills my requests in a timely matter. If we have any questions, he is so quick to get back to us. He is always on top of it.”

SHERRY GEBAUER | Payroll Manager

“I’ve worked in several payroll systems, but Workday is by far my favorite one. And since partnering with OSV, everything has been working extremely well. We’re pretty much error-free and that is why we continue to have a relationship.”

JOHN PANTELIAS | Global Payroll Director

“The benefits of switching to OSV were accurate payroll, accurate information, and reliability.”

JOHN PANTELIAS | Global Payroll Director

“One of the reasons we chose OSV was because of its competitive pricing. Our previous provider was much more expensive, and we had limited control and access. For example, we only had access to run a select amount of reports. If we needed any additional reports, they charged us for it.”
