Invoice Pay + Supplier Management

As a business, there are some things you just have to do, and paying your suppliers is one of them. But just because it's a nonnegotiable part of doing business, that doesn't mean your team has to be saddled with this burden.

OneSource Virtual is the Workday partner that can help you with absolutely anything, including paying your suppliers.

We've developed two new solutions to help companies reduce the manual, administrative effort around supplier payments and improve supplier relationships while optimizing the process for the benefit of both customers and suppliers.

Start with the solution that's right for you and scale up or down depending on your needs. Together, we can make supplier payments more doable.

Invoice Pay + Supplier Management

This solution is designed to provide businesses with a secure supplier payment solution that reduces financial risks, improves supplier relationships, and optimizes the process to minimize costs and increase working capital.

Under this solution, OSV:

- Assumes all liabilities for payment fraud on card, ACH, and paper check payments

- Assists with the movement from check to electronic payments

- Provides suppliers with a range of payment options, plus 24/7 access to an on-demand, self-service supplier portal that delivers enhanced visibility

- Offers cash rebates to customers on card payments

Premium AP

Premium AP combines the benefits of OSV's Managed AP service with the benefits of Invoice Pay + Supplier Management. The result is a truly comprehensive solution that meets the finance needs of Workday customers.

Enjoy all of the benefits above, along with the improved efficiency and accuracy that comes from eliminating manual administrative paper processing.

Premium AP customers also benefit from:

- Greater financial and audit controls

- One system of record for AP processing and reconciliation

- Increased payment times and control through one end-to-end service provider
